## Ernie Hartley | Membership Application

Community Membership

**Ernmander** 8 Oct 12

Hello, I would like to apply for ubuntu membership. My prompt to apply for membership was to be able to resurrect the ubuntu-UK community page / LoCo that seems to have been abandoned for many years now. I have contacted the listed owner and they prefer to hand over to an ubuntu member or canonical employee. Which I can understand.

The current admin is inactive, and has been for years, so community members don't have the ability to make changes to it's wiki etc.

*Please do not take the above as my only reason for applying for membership.*

I avidly test the ubuntu daily builds and betas. I report any bugs that I find during the testing. I have been testing the daily builds for years, also the betas. I am currently writing this from a machine running 22.10 beta.

My Launchpad account is [Ernie](#)

Still a proud owner of the original ubuntu phone. Now running ubuntutouch via UBports.

Currently testing the latest ubuntu beta 22.10, running as my daily driver.
